

We will be using a new online supplemental mathematics program – TenMarks, which will provide you with additional math practice using technology. ☺

TenMarks is an online program that enables you to practice & master math concepts – one topic at a time. You can practice these on your own time any time you wish!

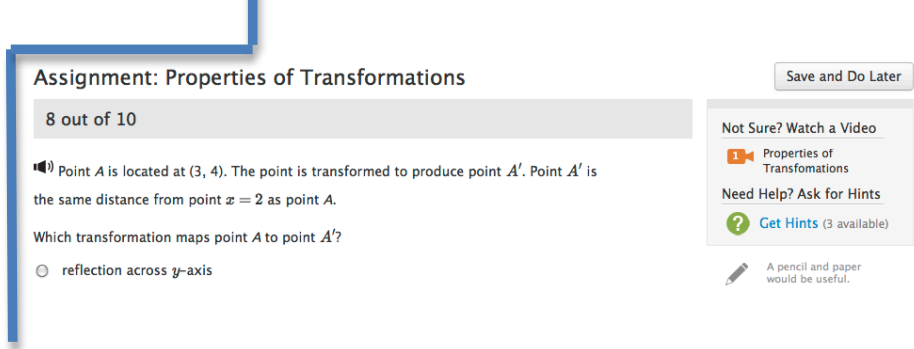

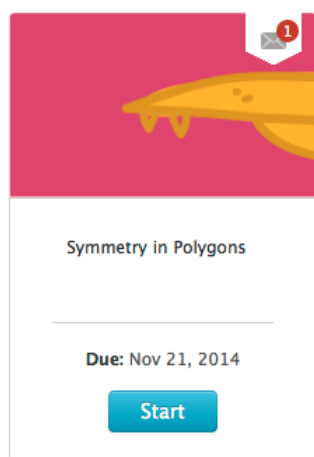

While you are practicing, TenMarks offers you **hints on EVERY problem** if you feel “stuck.” There are also **video tutorials** you can view if you need an explanation to help you grasp the concept you are working on!

Each week, there will be **1-2 online homework assignments**. You can complete these assignments **any time before the due date**. Some assignments will be review of previously learned concepts, and some assignments will deal with recently learned concepts. Each assignment will be graded for **correctness**, and we will monitor and review your progress. Completing these assignments should also help you become more comfortable with math programs on the computer (remember, the PARCC is a computer-based assessment).

In order to access TenMarks, visit <http://www.tenmarks.com>, and click on the “Login” link on the upper right corner of the page. Use the login information you were provided with.

Your assignments should appear once you logon. All you have to do is click “Start!”

You can also save your work and complete it at a later date using the button at the top right corner of the page.

You will even unlock some “Jam Sessions” and games as you complete assignments (towards the bottom of your home screen)! I believe this program will really help you to improve your math skills and

confidence. If you have any questions, please let me know. If you do not have Internet access at home, please also let me know so we can make other arrangements.

PARENTS/GUARDIANS: TenMarks also allows you to stay on top of your child’s work through your own account. You can access your account by visiting http://www.tenmarks.com/signup/classroom_parent and using the code that was provided to your child.

Please do not hesitate to contact me if you have any questions.

Ms. Boruch
